

Broaden your career opportunities in the field of enterprise risk management.

Become a CERA.

The Global Benchmark in ERM Expertise

The Chartered Enterprise Risk Analyst (CERA) credential is the most comprehensive and rigorous enterprise risk management (ERM) credential available. The CERA credential, developed by the SOA to meet the needs of the growing field of enterprise risk management, is the first actuarial credential recognized by multiple actuarial organizations from around the world – 14 in all.

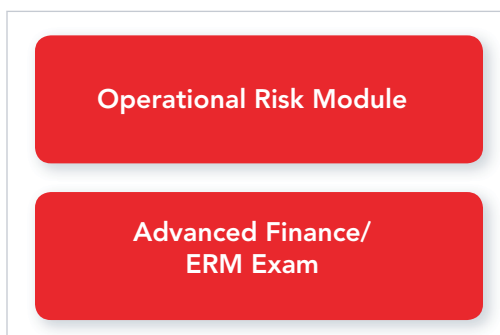

Innovative Risk Solutions for Businesses

Enterprise risk management is transforming into a standard business practice that is not only implemented by corporate governance to prevent losses, but utilized to optimize risks. Businesses rely on CERAs to apply their creative risk concepts enabling smarter, more confident decisions related to complex financial challenges affecting business and society.

TOP FIVE REASONS TO OBTAIN THE CERA CREDENTIAL

- Leverage your risk management experience into a rapidly evolving field
- Become a globally recognized enterprise risk management expert
- Enhance your exposure to the C-Suite
- Differentiate yourself from other risk professionals
- Advance the field of enterprise risk management and the actuarial profession

CURRENT FSAs and ASAs CAN BECOME CERAs SIMPLY BY COMPLETING THE FOLLOWING:
